Thank you Jeff. Can the language in the well-test report be amended to reflect my intent?

Hi Leah,

We have found the letter you sent to us in 2008. I believe the statement you are referring to is this:

"Would EPA consider invoking emergency authority under Section 1431 of the Safe Drinking Water Act to address the problem?"

I am not sure how they interpreted it at the time, but that looks different to be than "is the law applicable."

Hi Jeff,

EPA has many times said the Yakima Herald requested the invocation of the safe water drinking act. My recollection is that I asked if the law was applicable, which is slightly different. Do you have that original letter? I do not. It's something I should have clarified long ago.

Regards,
